

Thank you for joining us!

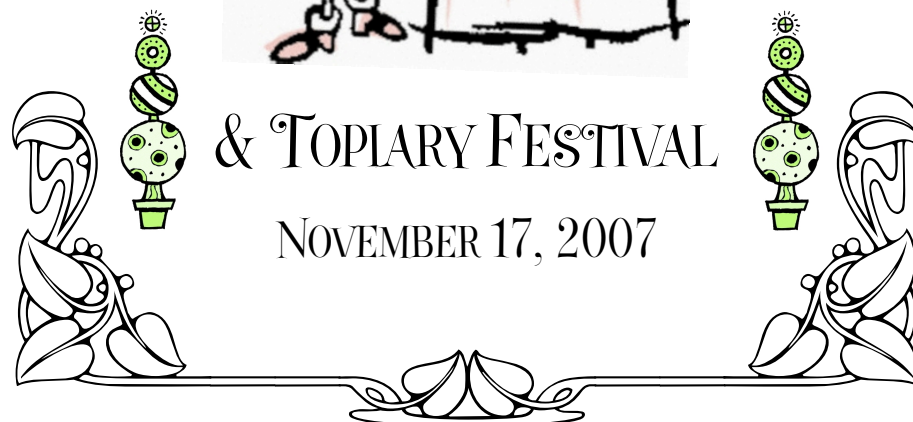

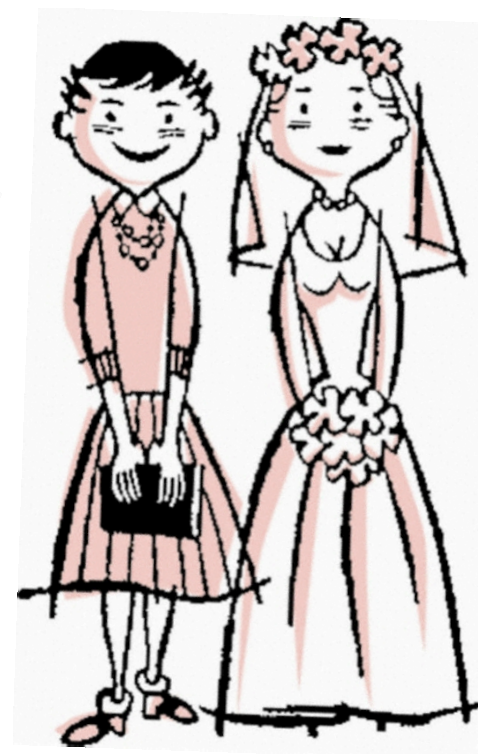

We are so delighted that you have joined us on our special day! We know that the form of this celebration is a little unorthodox. But our understanding of the commitment of marriage is that it will ultimately take more than both of us, individually, to ensure its success -- it will take all of you (no pressure!).

So we wanted to include and showcase the gifts, talents and support of our family and community. As well as throw one heck of a party! We hope you enjoy the show.

Special Thanks!

The following folks have gone above and beyond to make this evening a success. We appreciate all of you so much! So, many, many thanks, in no particular order ...
